

DURABLE MEDICAL EQUIPMENT FORMULARY

MCS Classicare (HMO)

2024

www.mcsclassicare.com

Durable Medical Equipment Formulary

(List of covered durable medical equipment items subject to specific brands or manufacturers)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DURABLE MEDICAL EQUIPMENT (DME) ITEMS WE COVER IN THIS PLAN THAT ARE SUBJECT TO A SPECIFIC BRAND, MANUFACTURER OR PRIOR AUTHORIZATION REQUIREMENT.

This formulary is effective on January 1, 2024. For questions, please contact our call center at 1-866-627-8183 (Toll-free) or 1-866-627-8182 (TTY users). You can call us Monday through Sunday from 8:00 a.m. to 8:00 p.m. from October 1 to March 31 and 8:00 a.m. to 8:00 p.m. Monday through Friday and Saturday from 8:00 a.m. to 4:30 p.m. from April 1 to September 30. You can also visit our website at www.mcsclassicare.com.

This formulary applies to all MCS Classicare enrollees. Please review this document to identify if there are equipment or supplies subject to the requirements in this formulary.

This document includes the list of the durable medical equipment that is subject to a specific brand or manufacturer for our plan. DMEs or supplies not included in this list (formulary), but covered by Original Medicare, are not subject to any particular brand, manufacturer or prior authorization requirement.

What is the MCS Classicare DME Formulary?

A formulary is a list of covered items selected by MCS Classicare subject to a specific brand or manufacturer believed to be a necessary part of a quality treatment program. MCS Classicare will generally cover the durable medical equipment items listed in the formulary as long as they are medically necessary, a medical order is provided by an MCS Classicare network physician, and other plan rules are followed. The DME will be supplied by a contracted DME provider.

Can the formulary change?

Generally, if you are using an item from our formulary that was covered at the beginning of the year, we may not discontinue or reduce coverage of the item during the 2024 coverage year (some exceptions may apply, for example, exceptions according to Medicare rules, medical necessity, among others). Other types of changes, such as additions of items to our formulary, will not affect enrollees. The formulary is not subject to a mid-year review for removing items.

Are there any restrictions on my coverage?

All DME equipment and/or supplies must comply with Medicare coverage criteria. The physician must validate that the coverage criteria are met and must be documented in the medical record. In addition to the physician validation of the coverage criteria, some covered items may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** MCS Classicare requires you, or your physician, or an authorized representative appointed by you, to get prior authorization for certain items. This means that you will need to get approval from MCS Classicare before you receive the equipment/supply or related service. If you don't get approval, MCS Classicare may not cover the item.

- **Quantity Limits:** For certain items, MCS Classicare limits the amount of supplies that MCS Classicare will cover.

You can find out if your item has any additional requirements or limits by looking in the formulary that begins on page 6.

You can ask MCS Classicare to make an exception to the restrictions or limitations applicable to our list of durable medical equipment, or to the brands or supplies in this list, to cover some other brand/manufacturer medically necessary to treat your health condition. See the section titled, "How do I request an exception to the MCS Classicare DME formulary?" for information about how to request an exception.

What if my supplies or requested durable medical equipment items are not on the formulary?

If your supplies or equipment are not included in this formulary, you should first contact our Call Center and ask if your supplies/equipment are covered. If the Call Center representative indicates that they're covered and are not in the list it means that they do not have any restriction regarding brand, manufacturer or prior authorization requirements. You can send the medical order directly to the contracted DME provider:

Clinical Medical Services - Fax: 787-474-2800 or 787-622-3449 - Phone: 787-620-2900 or 1-800-981-0122 Monday through Friday from 8:30 a.m. - 5:30 p.m.

During an enrollee's first year of enrollment in an MA plan, if the enrollee requests, the plan will provide a 90-day transition period (commencing with the initial time of enrollment) during which the plan provides (and repairs, as applicable) non-preferred DME brands furnished in the previous year;

If you learn that MCS Classicare does not cover your supplies/equipment, you can ask MCS Classicare to make an exception and cover your supplies/equipment. See below for information about how to request an exception.

How do I request an exception to the MCS Classicare DME Formulary?

You can ask MCS Classicare to make an exception to the coverage rules. There are several types of exceptions that you can ask us to make:

- You can ask us to cover an item of a different brand or manufacturer. Your physician must request this and should be submitted as a request for prior authorization for manufacturer and/or brand.
- You can ask us to cover an item if it is not listed as a covered service. If approved, this item will be covered.
- You can ask us to waive coverage restrictions or limits on your item. For example, for certain items, MCS Classicare limits the amount of the item that we will cover. If the item has a quantity limit, you can ask us to waive the limit and cover a greater amount. MCS Classicare shall validate the medical necessity of such request in coordination with the prescribing physician.

Call our Call Center at the phone numbers mentioned above or refer to your 2024 Evidence of Coverage, which tells you how to ask for coverage decisions, appeals and complaints.

For more information

For more detailed information about your MCS Classicare durable medical equipment coverage, please review your 2024 Evidence of Coverage.

MCS Classicare's DME Formulary

The formulary provides coverage information about some of the supplies and equipment covered by MCS Classicare that are subject to a specific brand or manufacturer.

The information is classified by type of equipment/supply. You may want to search by DME category or by specific service description. The formulary (that starts in page 6 of this document) has seven (7) columns. For your convenience, on the following page we provide a list in alphabetical order of the main categories of durable medical equipment/supplies included in this formulary.

TABLE OF CONTENTS

Column number	Column name	Column description
Column 1	Category	Includes the name of the main categories of durable medical equipment/supplies included in this formulary.
Column 2	HCPCS Code	This is the number of the DME or supply. This information is relevant for your physician and the supplier.
Column 3	DME Description	Includes the name of the DME or supplies
Column 4	DME Tier	<p>Classifies the services within the formulary in two (2) categories:</p> <p>Tier 1: Always requires pre-authorization. Only the preferred brand in column 6 and specific limit in column 7 are cover (If the physician deems a different manufacturer, brand, or amount necessary, justification from your physician is required.)</p> <p>Tier 2: No prior authorization required. Your doctor should submit a preauthorization request with justification if they believe a different manufacturer, brand, or quantity is necessary.</p> <p>* Important: Justification from your doctor must indicate why the preferred brand does not meet medical necessity.</p>
Column 5	Manufacturer	Includes the manufacturer (or the company) that develops or distributes the DME specified in Column 1.
Column 6	Brand	It indicates the specific brand to cover the service or DME specified in Column 1. In some instances more than one brand is considered as covered. In other particular cases it indicates "all brands," this means that all brands within the manufacturer are covered.
Column 7	Limits	This column indicates that the services are limited by quantity.
